

Intermediate to Advanced Acrylic Painting Supply List:

Instructor: Lisa Trahan

Any size canvas of your choosing, **though a 16" x 20" cotton primed canvas will be provided!**

Brushes: Any size of your choosing. We recommend at least 3 brushes such as:  
#3 round, #8 filbert, #10 flat. Having an assortment of brushes with multiple sizes in each brush type will work to your advantage. Nylon or taklon brushes are best for acrylics. Winsor and Newton makes a University line of brushes that work well and can be ordered online. Otherwise, Hobby Lobby and Michael's each have their own lines of brushes. You get what you pay for, so never buy bulk sets of craft brushes.

#### Acrylic Paints

- Cadmium yellow medium
- Cadmium lemon
- Cadmium red light
- Alizarin crimson
- Ultra marine blue
- Cerulean blue
- Viridian green
- Raw umber
- Titanium white
- Mars black

**Recommended:** Acrylic Mediums, Modifiers, and Retarders of your choosing. (These will help extend your paint, alter the viscosity, glossiness, matt, translucency, or slow down drying time depending on which one and application of use: Golden has a good line of these to choose from). Instructor will go over these in the class. Please feel free to ask questions to your instructor during your class sessions.

**Students may bring photographs, illustration books, and personal items from home or nature, for added inspiration.**

---

*For some helpful tips, to be cost efficient we suggest the Liquitex BASICS® Acrylic Paint **4oz.** that can be found either at Michael's or Hobby Lobby. You get what you pay for. For a high-end brand we recommend Golden Acrylics, Winsor Newton Acrylics, and the Professional line of Liquitex.*

*Also, we would recommend white nylon or taklon brushes for Acrylics. If you would like to get a higher end brand, Winsor Newton or Grumbacher are good ones.*

*To be more cost efficient we recommend using a less expensive brand such as Liquitex BASICS® acrylic brushes or Masters Touch or Artists Loft acrylic brushes. You should be able to find these at Michael's. You get what you pay for with brushes and paint. We do not recommend a bulk set of craft brushes. Hope this helps. Please let us know if you have any questions.*
